

# GP06

## PERSONAL GPS TRACKER

GP06 is a personal tracking and positioning device. The device uses 800mAh battery capacity to meet the long-term positioning and tracking needs. Because the terminal uses high-quality silicon hardware, it will be clearer when listening to the surrounding sounds.

The size of GP06 is 48x27x17mm, compact structure design, can solve the user's demand for a certain scene.

### FUNCTION

Real-time Tracking

User Define Geo-fence

SOS Emergency Call

Two-way Communication

Built-in Battery

Voice-controlled Callback

### PARAMETER

Size	48mm(L)*27mm(W)*17mm(H)	Weight	30g
Working Temperature	-20°C to 70°C	Built-in Battery	800mAh
Wire Connection	wireless		

### HARDWARE SPECIFICATION

Location Accuracy	<=10m	Channel	20 Class
GPS Chip	MTK	GPS Sensitivity	-148dBm
GSM Frequency	850/900/1800/1900MHZ	Tracking Sensitivity	-165dBm
	Hot Start<2SEC(Open Sky)	Power LED Indicator	Red
Positioning Time	Warm Start<25SEC	GPS LED Indicator	Blue
	Cold Start<38SEC(Open Sky)	GSM LED Indicator	Yellow
GSM Antenna	FPC Antenna		
GPS Antenna	Built-in Ceramic Antenna		
GPRS	Class12. TCP/IP Built-in GSM Module		

### SOFTWARE SPECIFICATION

Data Upgrade Port	Not Support	Two-way communication	Support
Function Port Definition	Not Support	SOS alarm	Support
Parameter Setting	SMS Command, Platform	Time voice reporting	Not Support
GPRS Upload	Upload Interval Every 10 Seconds	Whitelist communication	Not Support
Third-party Checking	WEB/APP	Voice monitoring	Support

### APPLICATION

Staff Management

Elders Protecting

Kids Protecting
