

# GP08

## ANIMAL GPS TRACKER

GP08 is a animal locator with a strap or collar. The device uses a 500mAh battery capacity to meet long-term positioning and tracking needs. Because the terminal uses high-quality silicon hardware, it will be clearer when listening to the surrounding sounds.

The size of GP08 is 53x23x29mm, and the structure is compact, which can solve the user's demand for a certain scene.

### FUNCTION

-  Real-time Tracking
-  User Define Geo-fence
-  SOS Emergency Call
-  Remotely Voice Monitoring
-  Built-in Battery
-  Voice-controlled Callback

### PARAMETER

Size	53mm(L)*23mm(W)*29mm(H)	Weight	25g
Working Temperature	-20°C to 70°C	Built-in Battery	500mAh
Wire Connection	wireless		

### HARDWARE SPECIFICATION

Location Accuracy	<=10m	Channel	20 Class
GPS Chip	MTK	GPS Sensitivity	-144dBm
GSM Frequency	850/900/1800/1900MHZ	Tracking Sensitivity	-160dBm
Positioning Time	Hot Start<2SEC(Open Sky)	Power LED Indicator	Red
	Warm Start<15SEC	GPS LED Indicator	Blue
	Cold Start<38SEC(Open Sky)	GSM LED Indicator	Yellow
GSM Antenna	Spring Antenna		
GPS Antenna	Built-in Ceramic Antenna		
GPRS	Class12. TCP/IP Built-in GSM Module		

### SOFTWARE SPECIFICATION

Data Upgrade Port	Not Support	Two-way communication	Not Support
Function Port Definition	Not Support	SOS alarm	Support
Parameter Setting	SMS Command, Platform	Time voice reporting	Not Support
GPRS Upload	Upload Interval Every 10 Seconds	Whitelist communication	Not Support
Third-party Checking	WEB/APP	Voice monitoring	Support

### APPLICATION

Pet Protecting

Cow Protecting

Horse Protecting
